

WEBSITE DESIGN

STARTS HERE

Welcome to
BRIGHT BOX INSIGHT

We strive to make your website dream a reality through branded, customer-centric and customer-focused strategic designs. We are a small team of coffee sipping, crock-wearing, and hard-working designers who understand one size does not fit all. Together we will design something amazing that converts.

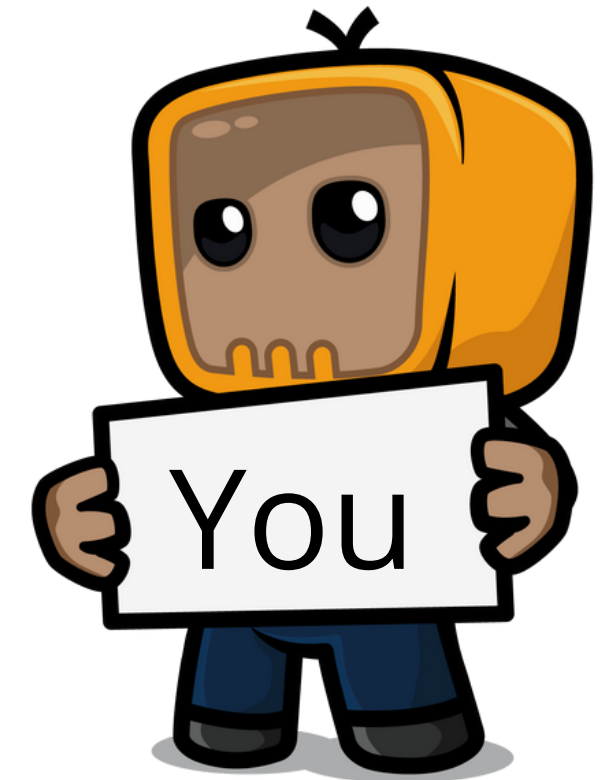

WHO DO WE WORK WITH

We love business success and have a passion for website design. We love a challenge, so we try to work with any and every type of business. We have designed websites for a vast amount of businesses. At the foundation of every design is market research. This is where we view your business market, competition, and audience to ensure the design is structured to tell the appropriate story and lead to conversion.

We love Webdesign

*Non-Profits
Health care
Insurance
Law Firms
Repair Shops
Child Care
Therapy
Church
Crafters
Construction
Bloggers
Realtors
Bakers
Event planners
Photographers
Apparel
and more....*

WHAT TO EXPECT

We are committed to meeting your website design vision, no matter how many cups of coffee it takes. The design process may get a little wild, wired, and maybe overwhelming, but in the end, we deliver a remarkable product. Branded, strategic, customer-focused, and designed to convert.

Quality Designs

HOW IT'S DONE

- We create a mock-up Website and send it to you.
- You review and make the choice to hire us to design (invoice/pay)
- You provide us with your **Wix** log in email
- We transfer ownership of the mock-up website
- Back and forth adjustments and feedback until the launch.
- You enjoy your new business tool.

STICKING TO SCHEDULE

We take a considerable amount of time to design each mock-up website from scratch. Typically 6-8hrs, each adjustment requested from paid clients is conducted within 24hrs - 72hrs, but we strive for immediate adjustments. Please be patient as each designer has a typical workload of 5-6 clients. Each client has unique needs that can take a considerable amount of time.

Time Lines

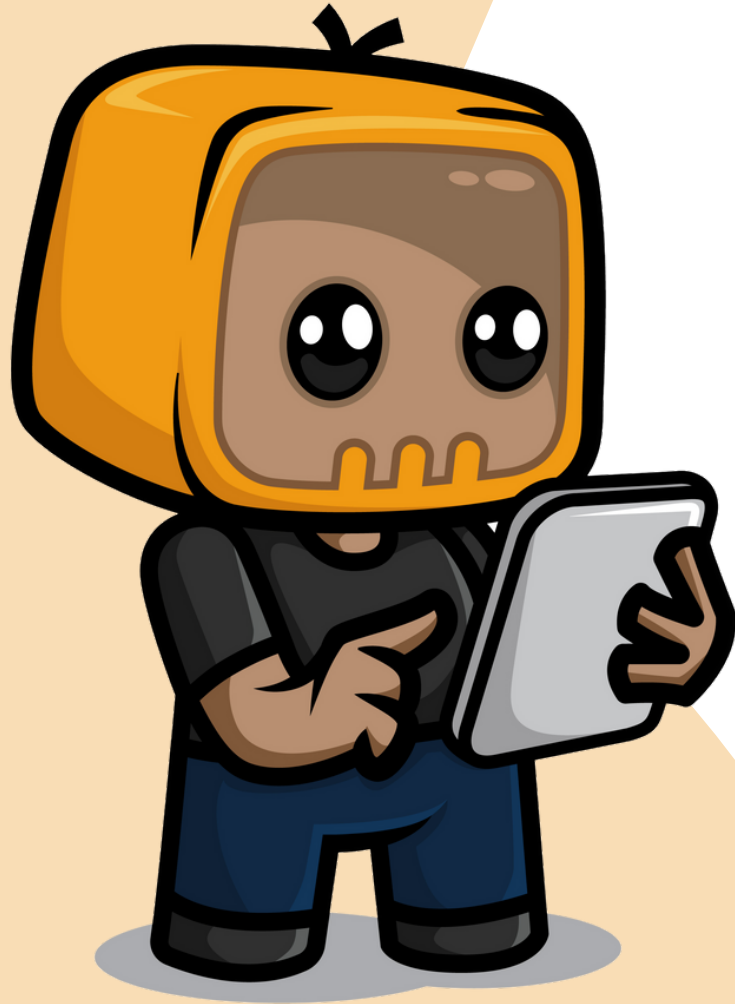

Paid clients have priority

Adjustments to a mock-up design without payment are considered free work, at the designer's discretion.

Why do I have to pay first? *Do you taste coffee before paying?*

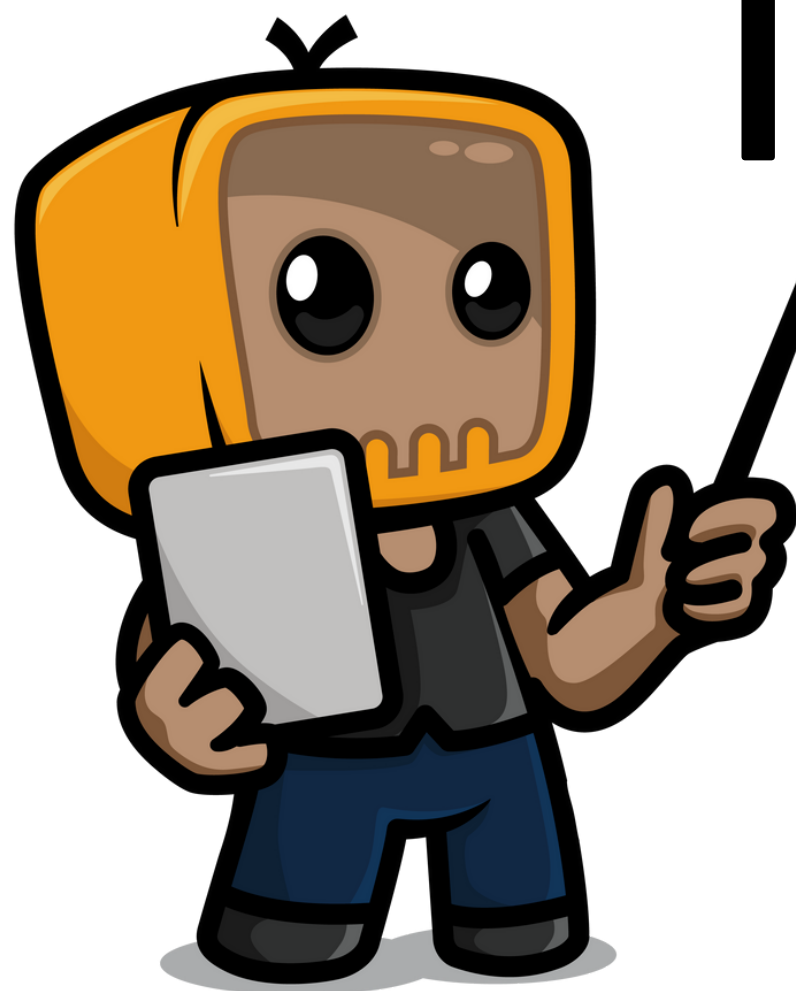

WE DESIGN. YOU CONTROL

It is our job to design a quality, amazing and converting website. Launching a website better known as taking it to live to view by all is the end of the project unless your designer has items to complete that were previously agreed to. After the website launch, it is your responsibility to control your new business tool. Requesting updates to content on your website may incur additional charges. This is because a project has to have an end, if we don't draw the line at some point then we would be "designing" a site indefinite.

Time for work!

THANK YOU

for taking time out to consider us for your website needs. We know how important a website is, more importantly, the impact it has on your business success. This is why we are here. We want to help your business become successful. Hope to work with you soon.

Let's Team Up!
